***Information Disclosure Statement***

The information disclosure statement filed 12/11/03 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. The citation for a U.S. Patent Application for which neither a serial number nor a copy was supplied has been lined through as having not been considered but the other citations in conformance were considered.

**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Although references of record teach a capacitor means, an inverter and a means for connecting the input portion and output portion of the inverter, none teach the first through fourth means as recited in claim 1, a second inverter comprising a switch for fixing a potential of an output of the level shifter in a period in which an output of the first inverter is unstable as recited in claims 3-5 or the first through fourth means as recited in claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret R Wambach whose telephone number is
